Subject: Air Permitting Transformation Stakeholder's Mtg.

This message is in regard to the NJDEP Air Permitting Program transformation initiative. I am John Preczewski, Assistant Direct in charge of the Permitting Program.

The initiative seeks to exam ways to improve the current DEEP air permitting process. As part of our effort we will be meeting with a number of stakeholders that we believe may be interested in participating in the transformation process for both air permitting and for stack testing in New Jersey.

Meetings are scheduled here in Trenton at #4 Station Plaza (located near the public parking high rise garage) in the 3rd floor large conference room for the follow dates and times:

Feb 11th from 9 am - 12 PM
Feb 17th from 1:30 - 4:30 PM
Feb 22 from 9 am - 12 PM

A number of you have already responded that you would be attending. If you have not already responded I would appreciate it if you would e-mail me back with your interest.

Attached is the agenda for the first meeting next Friday the 11th. I look forward to hearing from you if we have not already confirmed your attendance. Otherwise I look forward to meeting with on this important subject.
